GDPR in Lantmäteriet

- “Gapfinding” project, involving multiple resources. Approximately 1 year.
- Identified five areas of focus
 - Data Protection Officer
 - Art. 30, record of processing activities
 - Data Processing Agreements
 - Securing the rights of data subjects
 - Write and deliver information to data subjects

Remaining issues to resolve

- Safeguards and risk management concerning personal data
- Updating internal governing documents
- Underdeveloped automation

Common GDPR- challenges concerning spatial data

- Differing applications
- Increased collection of data from new technologies
- Securing the rights of data subjects

Thank you for your attention!
