

LANTMÄTERIET

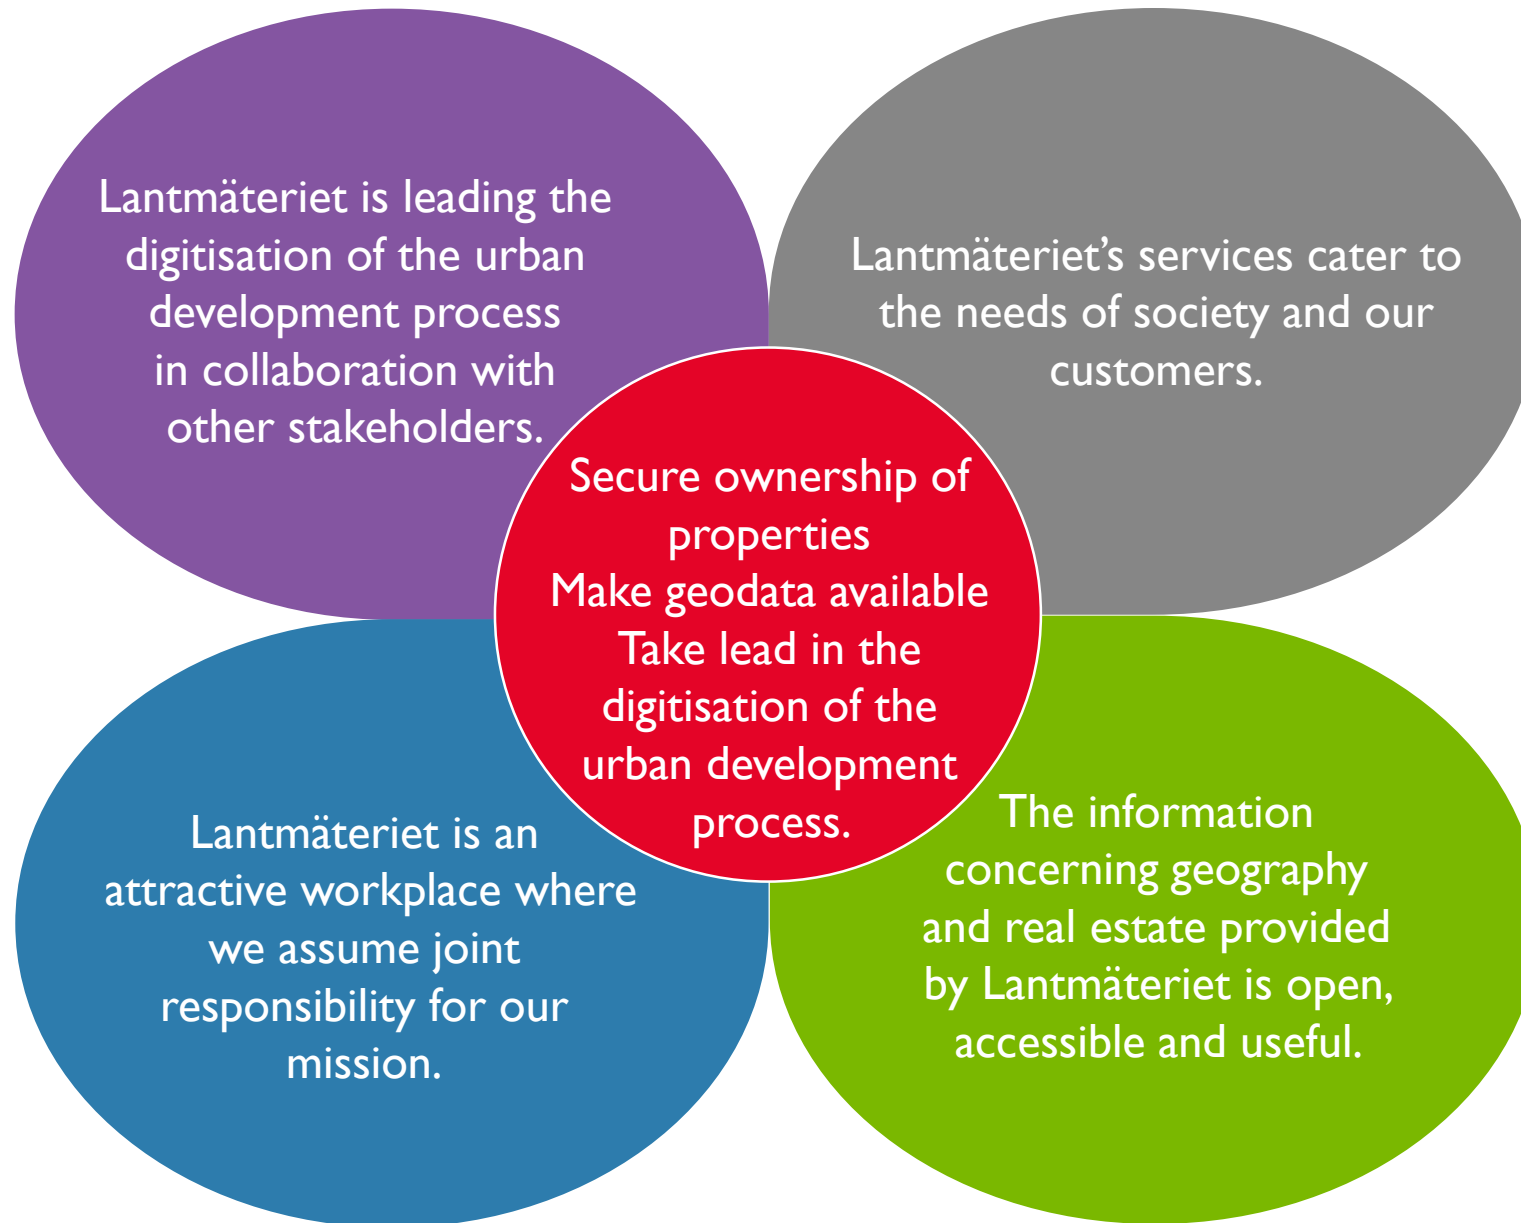

THE SWEDISH MAPPING, CADASTER AND LAND REGISTRY AGENCY

UNDER THE MINISTRY OF FINANCE

TO SECURE OWNERSHIP TO REAL PROPERTY AND ENSURE THE QUALITY AND
DISTRIBUTION OF GEODATA

LANTMÄTERIET

FROM ACCIDENTAL OR SPONTANEOUS TO SYSTEMATIC INNOVATION

LANTMÄTERIET INNOVATION:

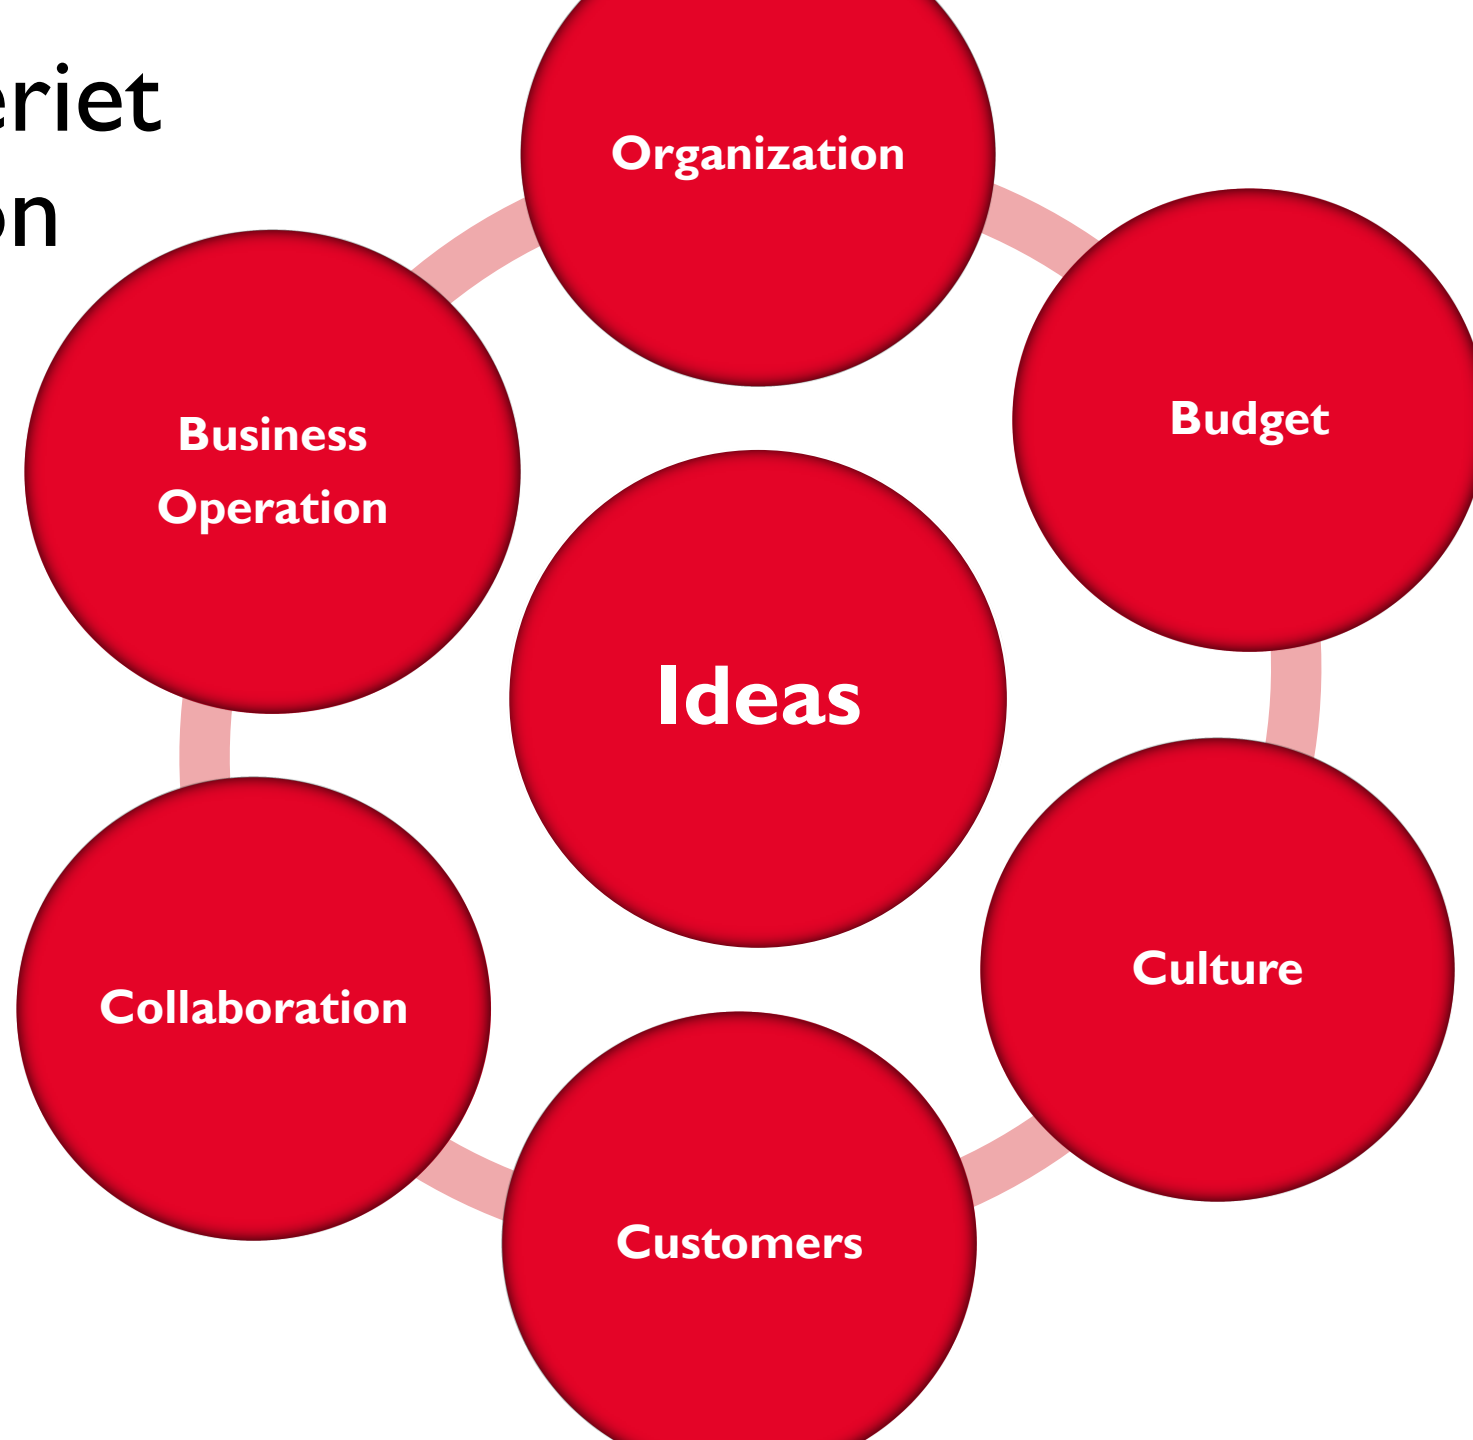

is something new and untested that leads to added value and positive effects for the customers

Innovation is the driving force for development and continuous improvement

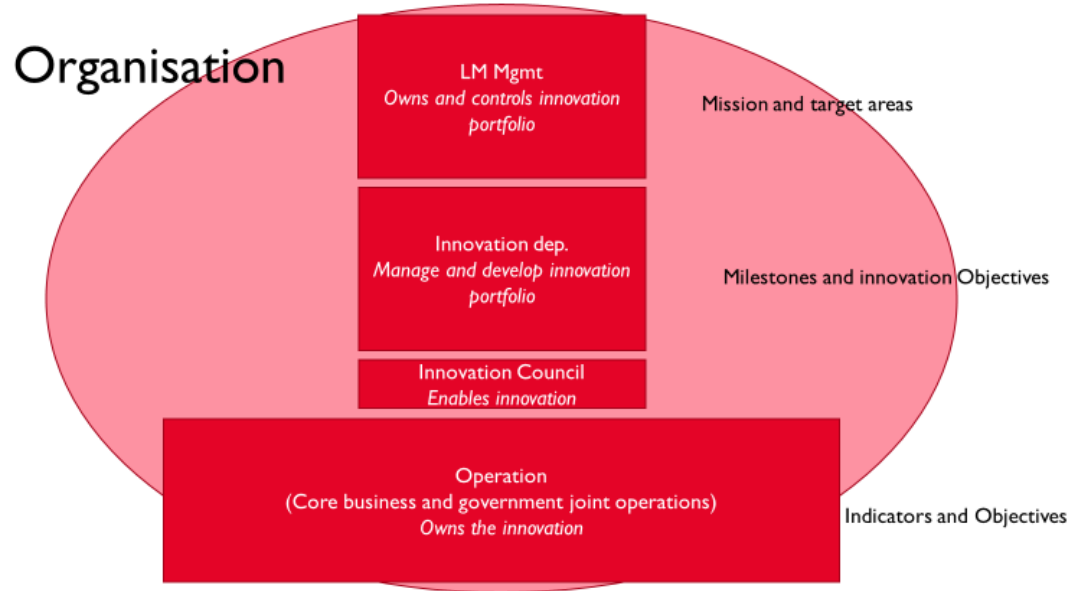

Innovation in a systematized way gives the business faster and better results of development. The innovation also provides the development of skills and ability to work with the demands and needs of the future.

Having a balanced innovation provides a climate in which a natural work with continuous improvement is a part of the operation.

Organisation

Innovation goals

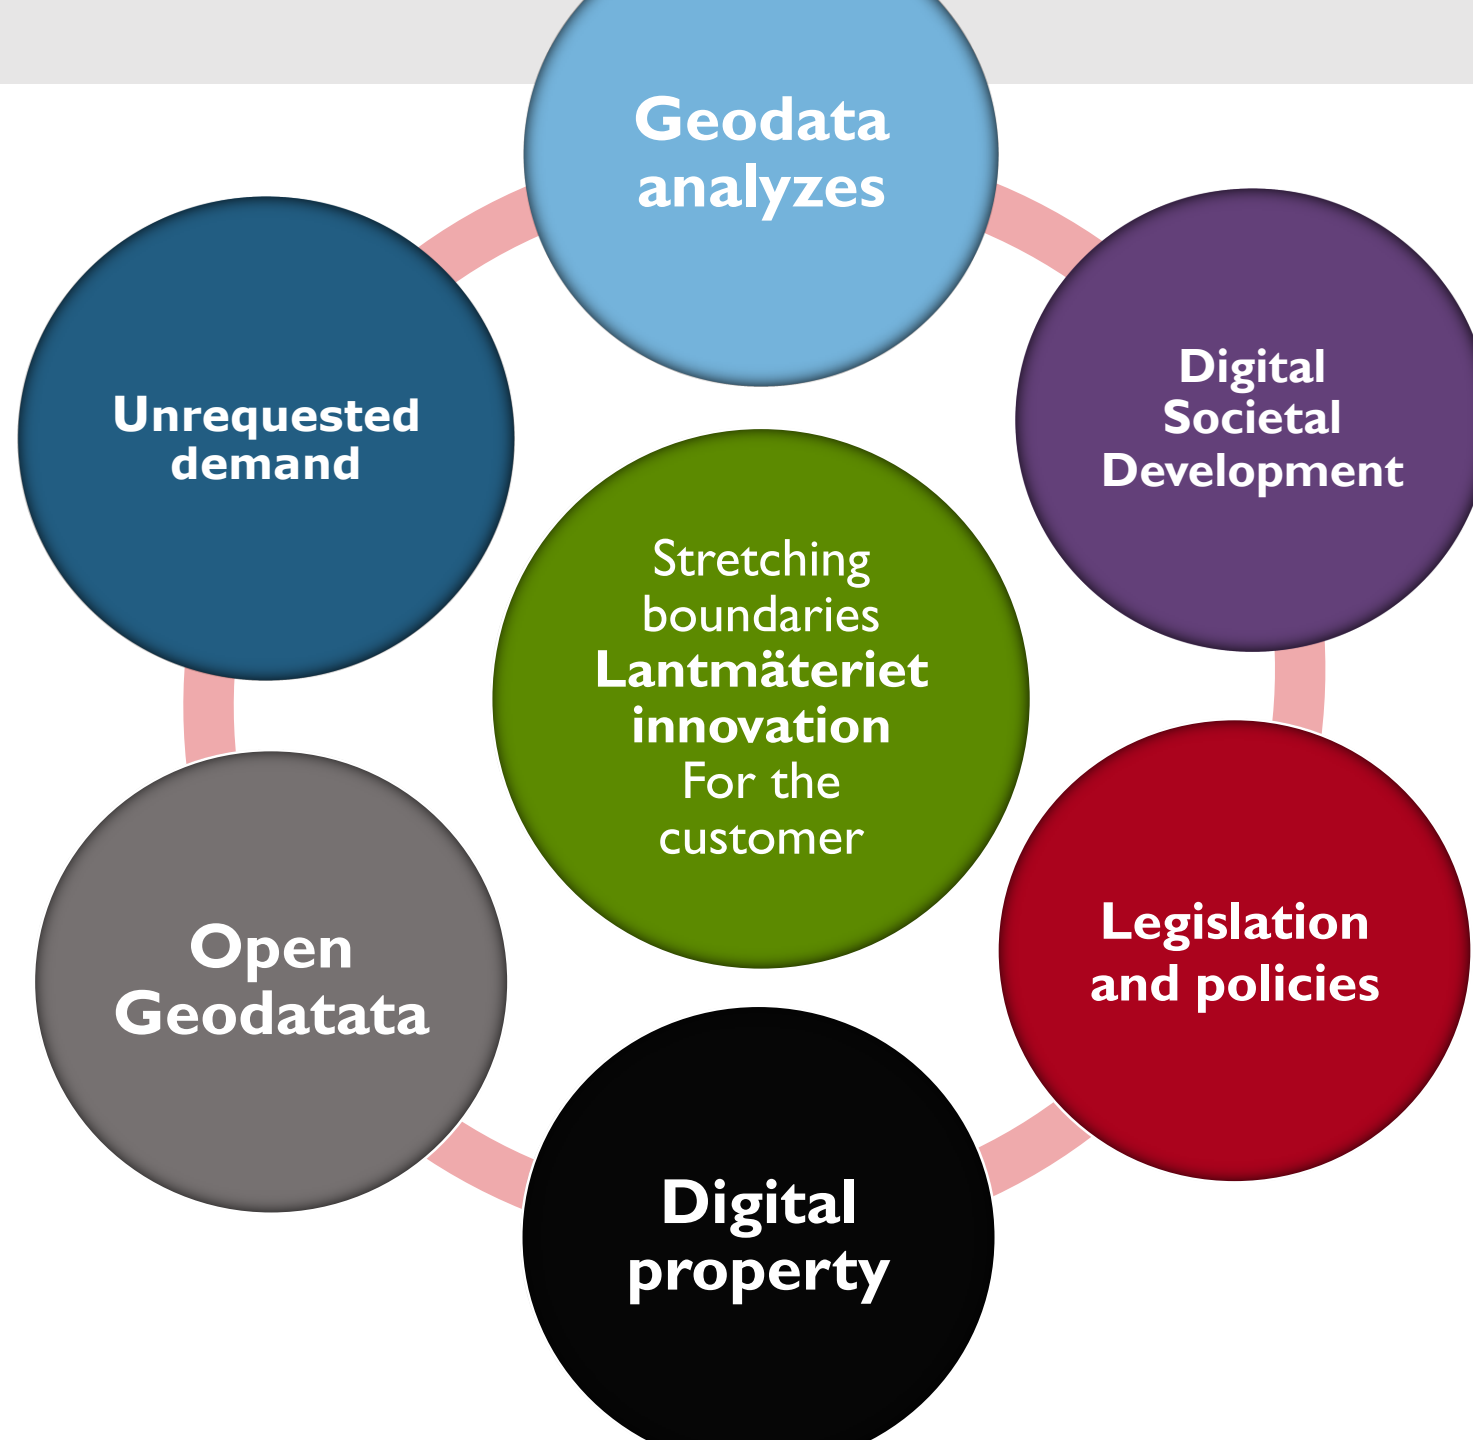

Long term, 2-3 years

1. Reduced waste (unnecessary, unwanted demand)
2. Increased analytical capacity
3. Automated functions
4. Increased innovation capacity

Short-term goals, 2019

- An innovation system that gives clarity to what innovation is, how it is conducted and how responsibilities are distributed
- At least 3 started and completed innovation initiatives
- At least 1 innovation, from idea to implementation
